Re: ASLA Green Roof

Dear Nancy:

Enclosed is a check for \$999.98 from the PA/DE Chapter ASLA in support of the green roof design and installation on ASLA national headquarters building. However this is our two cents. Although our Executive Committee fully endorses the concept of a green roof on ASLA Headquarters and the educational value thereof, we are extremely disappointed in the decision-making process concerning the design and construction overruns. A decision process void of membership input especially with such great financial circumstances can not be fully endorsed from PA/DE Chapter ASLA's viewpoint.

It is very important to us collectively that this opinion is duly noted as you accept our donation to this project.

On behalf of PA/DE Chapter ASLA Executive Committee
With Most Sincerity,

Lisa A. Kunst Vavro, RLA, ASLA
President
PA/DE Chapter ASLA
