

SITE PLAN

Ample seating in the central gathering space allows for diverse opportunities to use the space.

Attention to construction details creates a usable, functional and aesthetic space while responding to the maintenance needs of the treatment center.

Even with limited space, alcoves were created along curvilinear paths to add more exploration opportunities while providing a variety of comfortable spaces.

The frame of the shade sail offers visual interest even in winter and is accented with lighting at night.

A variety of plant textures were used to provide interest throughout the seasons. Fragrant plants such as sage and catmint offer additional stimulation of the senses.

A putting green surrounded by plantings offers patients a chance to partake in an activity alone or with one another to pass the time.

An intimate scale was achieved throughout the terrace space using pots, planting islands, curved paths, and shade structures. Shade structures were also used to help frame views.

Colorful wind sculptures provide movement and focal points.

A variety of seating choices and movable chairs offers patients and staff flexibility.

PLANT LIST

Northern Bayberry

- Screens the storage bin.
- Grey fragrant berries provide winter interest.

Midnight Blue Wild Indigo

- Bushy blue green foliage.
- Provides backdrop to bench seating.

Silver Carpet Lamb's Ears

- Coarse texture.
- Silver foliage, soft to the touch.

Pink Flowering Almond

- Spring flowering.
- Medium texture supports firefly lights.

Clusterhead Pink Dianthus

- Pops of color.
- Evergreen, smooth-textured foliage.

Karl Foerster Reed Grass

- Fine texture sways in the wind.
- Fall color and winter interest.

Rock Anise Hyssop

- Pink flowers all summer.
- Fine textured, fragrant foliage.

Tall Catmint

- Long-lasting, early summer blue flowers.
- Fragrant leaves.

Five-leaf Akebia Vine

- Coarse texture softens trellis and provides shade.

Allium

- Large flowers.
- Dense, finely textured, scented leaves.

Blue Spire Russian Sage

- Long-lasting, late summer blue flowers.
- Fragrant leaves.

Valerie Finnis White Sage

- Medium textured.
- Fragrant, silver foliage.

Autumn Joy Sedum

- Coarse texture.
- Pink fall flowers.
