

2020 TYLER SCHOOL OF ART AND ARCHITECTURE ONLINE PRE-COLLEGE SUMMER PROGRAMS

Tyler Pre-College Programs will be offered online for Summer 2020. Each of our classes has been adapted specifically for online learning to allow students to engage in hands-on, project-based learning from the safety of their homes. Our online programs are designed to be as interactive as possible and will include a mix of:

- Live face-to-face instruction and presentations with your instructors
- Time for hands-on art making and projects, both independently and in small groups
- Critique and discussion of projects with your instructors and classmates
- Virtual studio visits and guest lectures by practicing professionals
- Online resources such as virtual museum tours, site visits and demonstration videos
- Optional social activities allowing you to connect with your creative peers
- A virtual final exhibition to showcase the work you've created with family, friends and fellow pre-college classmates
