

TRAFFIC PLANNING AND DESIGN, INC.

Sr. Landscape Architect / Project Manager

[Bethlehem, PA](#)

Description

TPD is seeking a creative, highly-skilled Senior Landscape Architect / Project Manager for immediate employment. This candidate will collaborate with planners, engineers, and environmental specialists to conceive, design, and deliver multimodal projects, streetscapes, parks, and green infrastructure projects across TPD's 12-office footprint.

TPD offers a competitive salary and excellent benefits including an unmatched flex time policy, Paid Time Off and a Professional Development program developed to help our staff continue their education and training throughout their careers.

Reasons to work for Traffic Planning and Design:

- We are a dynamic team of multi-disciplinary transportation professionals that innovate, collaborate, learn from each other, and serve the needs of our clients and the public. Our team of 150+ engineering, design and planning professionals share a mission to improve the quality of life for the public, and we are dedicated to our company values:
- Commitment to continuous Professional Development to advance knowledge of current standards, principles and emerging technologies
- Dedication to responsiveness
- Commitment to fostering a healthy work-life balance
- Active engagement in the shaping of policy
- Commitment to client and geographic diversity
- Dedication to expanding services to meet the needs of the public
- Commitment to bettering our surrounding communities through charitable work and giving
- Our team members produce exceptional work products and are supported in their growth through some of the most competitive benefits in the industry. TPD offers a competitive salary and benefits including an unmatched flex time policy, Paid Time Off, parental leave and a Professional Development program designed to help our staff continue their education and training throughout their careers.

Duties and Responsibilities include, but are not limited to:

- Manage multiple projects and provide technical quality control
- Lead and/or participate in design conceptualization, presentation of plans, presentations, and specifications
- Lead and participate in project meetings
- Direct and supervise activities of landscape architects/engineers/planners on staff
- Develop new business opportunities through networking, client meetings and presentation
- Prepare proposals and participate in business development
- Prepare monthly invoices

TPD has excellent opportunity for career growth and upward mobility. Technical learning is encouraged both externally and also within TPD's own University. Also, opportunities can increase in responsibilities and leadership as a person moves through their career.

Requirements

- Professional Landscape Architecture License
- Accredited Degree in Landscape Architecture
- At least 8 years' experience working in landscape architecture/planning/engineering
- Proven experience managing multiple projects at one time
- Excellent design, organization, and communication skills required.
- High level of proficiency with AutoCAD, Adobe Creative Suite, and Sketchup
